The Corporate Corner

casebase

Addressing the opioid epidemic takes a team-based approach.
INDIVIOR WAS BUILT TO DO JUST THAT.

Opioid use significantly increases a person's chances of involvement with the criminal justice system.¹ Based on a 2025 report, of the estimated **2 million** individuals in jails or prisons in the US between 2019 and 2025, **1 in 5** were incarcerated for drug-related offenses.² Certain medications for opioid use disorder (MOUD) are associated with improvements in reducing criminal activity, decreasing drug cravings, and lowering illicit opioid use.³
